

WHEY-BASED INFANT FORMULA

INGREDIENTS	%
Nutritek® 900 , reduced minerals whey	43.0
Nonfat Dry Milk	16.0
Lactose 305 , refined edible lactose	11.3
Fat Blend	28.0
Lecithin	0.5
Vitamin and Minerals	1.2

PROCEDURE

1. Wet blend all ingredients.
 2. Spray dry.
 3. To rehydrate product, blend 10% of the formula mix with 90% water.
- Adjust vitamin, mineral and fat contents to meet minimum and maximum required nutritional standards as defined by local regulations.

BENEFITS

Nutritek 900 is a 90% demineralized whey. The protein in **Nutritek 900** brings the albumin to casein ratio of the formula to the same ratio as human milk. The additional lactose from **Nutritek 900** and **Lactose 305** raises the milk sugar concentration in the formula to the same level as human milk.
